

A BABY DIED

This is Baby Choice, a precious 4 1/2 month old little girl, burned by the saline solution used to abort her. There are 4000 babies aborted each day in America. (one every 20 seconds). Abortion is legal thru the ninth month of pregnancy. We have been led to believe that having an abortion is removing a mass of tissue. LOOK AT THIS LITTLE GIRL, she is more than a mass of tissue. She is a perfectly formed human being! IS THIS SUCH A GOOD CHOICE?
